Call for Papers

Hardwear.io Security Trainings & Conference Netherlands 2021

IMPORTANT DATES

CFP Opens: 20 June 2021
CFP Closes: 20 July 2021
Conference: 28-29 Oct 2021

Since 2015, Hardwear.io provides an international platform for security researchers and industry professionals to present their current research on attacking and defending hardware. Hardwear.io Netherlands 2021 is seeking original, groundbreaking, and creative papers, so if you've done any cutting edge offence/defence research and want to share it to the security community, it's time to submit your research paper!

SUBMIT NOW:

<https://bit.ly/3BcyVR7>

Submission topics include, but are not limited to:

Smart cards: identification, access controls, pay TV

IoT devices: automotive, medical, payment, connected devices

Trusted computing: mobile TPM, Trusted Execution Environments

Embedded systems: firmware, operating systems, memory, VMs

Trojans and backdoors: counterfeit detection and prevention

Attacks and countermeasures:

Side-channel, Fault Injection, EMFI, Tempest attacks and countermeasures

Reverse engineering, (anti-)cloning, (anti-)tampering, (anti-)counterfeiting
